No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. or even heard of by the people around them.

Can any parent consider giving up a daughter or son to some cause without imagining the feeling of God when the zave His Son up to the tortures of the world? Just look at the time some of us make when we give up some earthly thing, how trivial it all seems when we think of the great gift of God. God's gifts are all about us and they are wonderful. The flowers of the fields, the birds, the stars, the sun, the sea and countiess other things that God gives to us. How many of us forget about these things and say, "My hands did this, or my many of us forget about these things and say," My hands did this, or my many of us forget about these things and that?" W don't stop to consider that these same hands and the same brains are the gifts of God. Are we thankful for them? Look at your asylums and then thank God for the reason which he has given us. God is back of everything, both materially and spiritually. Do we thank God for the peace that this country enjoys when nations are warring across the scas? Do we ask God to preserve this peace Not as a coward afraid to fight but in the spirit of God and the love of God. Many kick at the high prices of things at the present time. Look at the millions. Ighting and dying in the great war those who have net or can get the things we enjoy even at the high prices. Do we think that we are God's site?

We should not hold to the material things as fext as we do giving no thought the things we enjoy even at the high prices. Do we think that we are God's site?
